

**Japanese Biomass Outlook - *FutureMetrics***  
**published December 2017**

**Contents**

Introduction .....	4
Background on Energy in Japan .....	5
From Coal to Oil .....	6
After the Oil Crisis .....	7
The Fukushima-Daiichi Nuclear Disaster .....	8
Japan’s Current Energy Situation .....	9
Renewable Energy in Japan .....	11
Biomass Energy Policy Drivers .....	12
Background on Japan’s Political System .....	12
Renewable Energy Policy in Japan .....	12
Biomass in the Feed in Tariff.....	13
Japanese Electricity Market Deregulation.....	13
Japan’s “Best Energy Mix” .....	15
Coal Efficiency Standards .....	16
Japan’s Forestry Sector .....	17
Biomass Demand Outlook.....	21
Demand from IPPs .....	21
Wood Pellets.....	23
Palm Kernel Shell (PKS) .....	24
Domestic Woody Biomass.....	26
Imported Wood Chips.....	28
Pellet Demand for Co-Firing.....	29
Co-firing to Meet Efficiency Standards.....	29
Co-firing Under the FiT.....	30
Outlook for Co-firing Demand.....	31
Supply .....	32
Wood Pellets.....	32
British Columbia.....	34
US South .....	36
Vietnam .....	39

Russia.....	42
Other Asia .....	43
Australia.....	44
Other.....	45
Palm Kernel Shell .....	46
Imported Wood Chips.....	50
Domestic Forest Biomass.....	51
Prices and Economics.....	52
Prices .....	52
Ability to Pay Under the FiT .....	55
Outlook for Japan Wood Pellet Prices.....	59
Appendix Table 1. Nuclear Power Plants in Japan .....	60
Appendix Table 2. Biomass Demand Forecast – As Purchased Tonnes.....	62
Appendix Table 2. Biomass Demand Forecast – Pellet Tonnes Equivalent .....	64
Appendix Table 3. Woody Biomass IPPs .....	66
Appendix Table 4. Operating Coal Plants in Japan .....	69
Appendix Table 5. Planned Coal Plants in Japan .....	71
